Importance: High

Hello all,

After careful consideration, I have decided to cancel the ERC meeting for benzo[a]pyrene. The comments are straightforward, focused on improving clarity and completeness of the assessment. No particular issue has risen to the level of requiring broad discussion and a large meeting to go through the comments is not warranted.

We received great comments from Deb Segal, Sue Makris, and Norm Birchfield (attached). The team has been going through the comments and will continue to address and revise the assessment. If anyone other than the primary and secondary reviewers has reviewed the materials and has comments please let me know as soon as possible.

Once the assessment is revised, I will circulate to this group to close-out the ERC. Enjoy the 1.5 hours you just gained back ☺

Thank you for your continued efforts for NCEA!
Samantha
